Experience

Founder, Full-Stack Web Developer
Code Tailors | Remote
Aug 2024 - Present

- Founded Code Tailors to conduct web-development projects for small businesses using HTML, CSS, JS, and ReactJS or the front-end coupled with Express, Mongoose, and MongoDB for the back-end.

Junior Computer Systems Engineer / Architect
General Dynamics Information Technology | San Antonio, TX
May 2024 - Aug 2024

- Managed a Windows 11 tech refresh for 1,500 users, including imaging and deploying laptops, software management, and Active Directory tasks.
- Handled asset inventory, shipping, and tracking, and conducted user data backup with USMT and OneDrive.

Information Technology Specialist
U.S. Army | Domestic and Foreign
Feb 2019 - Feb 2024

- Led a team to support 600+ users across HQ and South America, configuring iOS devices and setting up VTC environments.
- Established a remote WAN site, managing network setup and secure communication at all OSI layers.
